(a) A_1 distribution with fits
Observed ($N = 442$)
Log-normal (KS $D = 0.046$)
Rayleigh (KS $D = 0.242$)
Exponential (KS $D = 0.109$)
Probability density
A_1
(b) A_2 distribution with fits
Observed ($N = 302$)
Log-normal (KS $D = 0.048$)
Rayleigh (KS $D = 0.273$)
Exponential (KS $D = 0.091$)
Probability density
A_2
